Group email address for the TCS administrative contacts (e.g. sanet-tcs@domain.sk) <input type="text"/>	
Address <input type="text"/>	

Domains that certificates will be requested for

Domains <input type="text"/>

Administrative contacts

1) Full name <input type="text"/>	User name (required) <input type="text"/>
2) Full name <input type="text"/>	User name (required) <input type="text"/>
3) Full name <input type="text"/>	User name (required) <input type="text"/>
4) Full name <input type="text"/>	User name (required) <input type="text"/>

Signature: I certify that the information above is correct and that we agree to be bound by the enclosed Subscriber Agreement

Signature <input type="text"/>	Date <input type="text"/>
Full name (in block letters) <input type="text"/>	Title <input type="text"/>
URL or other reference to documentation showing that the signing person can legally bind the organization <input type="text"/>	

SANET TCS Subscriber Agreement

1. The Subscriber must be a SANET connected organization to be eligible for the TCS service.
2. The Subscriber is responsible that its staff and representatives involved with the TERENA Certificate Service (TCS) read and understand the terms and conditions in the TCS Certificate Practice Statement (CPS) and associated policies that are published in the TCS repository at <http://www.terena.org/tcs/repository/>. The Subscriber agrees with these terms and conditions.
3. The Subscriber shall follow the practices and procedures described in the TCS CPS, and shall act in accordance with the conditions imposed on Subscribers by the CPS.
4. The Subscriber is responsible to use TCS certificates only for legal and authorised purposes in accordance with the suggested usages and practices in the CPS.
5. The Subscriber shall not install and use an issued certificate until after the Subscriber has reviewed and verified the accuracy of the data in the certificate. Subscriber is responsible to cease using a certificate if any information in it becomes misleading, obsolete or invalid.
6. The Subscriber is responsible to provide correct and accurate information in its communications with SANET. Subscriber is responsible to alert SANET if at any stage while a certificate is valid, any information originally submitted has changed since it had been submitted to SANET.
7. The Subscriber is responsible to make reasonable efforts to prevent the compromise, loss, disclosure, modification or otherwise unauthorised use of the private key corresponding to the public key published in a certificate. Subscriber is responsible to request the revocation of a certificate in case of an occurrence that materially affects the integrity of a certificate.
8. Certificates issued to Subscriber may be revoked by SANET or TERENA according to the conditions indicated in the TCS CPS.
9. The Subscriber is responsible to cease using a certificate if it has expired or has been revoked.
10. The Subscriber is responsible to obey the applicable law with respect to each certificate.
11. The Subscriber is responsible for keeping passwords and/or similar login credentials used to access the SANET TCS RA application confidential and to contact SANET if there is any indication that such information might be compromised.
12. The Subscriber will immediately notify SANET if an Administrative Contact should cease to be authorised to access the SANET TCS RA application.

Additional Information about the Form

Please contact tcs@sanet.sk before filling in the form to get instructions on how to create users for the administrative contacts.

The organization name must match the name registered with the organization number in public databases.

Your organization must own the domains you will request certificates for, as shown by the official domain database entries for the domains.

If you need to change the information in the form, please send a new, updated form. The information in that form will replace the old information (remember to include all domains and administrative contacts that should be valid).

Please send the filled in form to:
